

*Stepping Up the Quality  
to international standards ...*

**Retina Hospital**  
PORWAL EYE CLINIC  
LASER & RESEARCH CENTRE

We are pleased to announce the  
installation of the latest technology  
in the world for  
Vitreo-Retinal Eye Surgery  
**The Constellation Vision System**  
from Alcon (USA)  
at Retina Hospital, Rajkot

This landmark event in June 2011  
makes **Retina Hospital**  
one of the very few centres in India  
& among elite centres worldwide  
(The 1<sup>st</sup> in Saurashtra-Kutch and  
Only the 2<sup>nd</sup> in entire Gujarat)  
to acquire this state-of-the-art  
Vitreotomy machine  
with never-before surgical features

The Constellation Vision System provides unique features like:

- **Ultra-high cut rates (5000 cuts/minute)**
- **Automated Intraocular Pressure control during surgery**
- **Micro-level surgical control**
- **And many other path-breaking features**

Enabling more efficient, safer and better Micro-incision Sutureless Vitrectomy & other related surgical procedures for the Retina & the Eye.

**Retina Hospital** is committed

to continue providing exclusive, dedicated & experienced services in the tough field of Retina, and also making the best of Vitreo-Retinal treatment available full time as well as affordable to every patient at Retina Hospital (with contributions from DPCT - Dinesh Porwal Charitable Trust).

### **Retina Hospital**

dedicates the newly acquired  
**Constellation Vitrectomy machine**  
to its patients along with  
heartful gratitude & thanks  
to all our well-wishers like  
**YOU**
